# LENTIL

---

## CONTENTS

---

# Contents

## 1 Introduction

Key points.....	1
Keys to successful lentil production .....	2
1.1 The role of pulses in the farming system.....	3
1.2 Why grow lentil? .....	4
1.2.1 Economics of lentil production .....	4
1.2.2 Lentil in the rotation.....	5
1.3 Crop overview.....	6
1.3.1 History.....	6
1.3.2 Lentil end uses.....	6
1.3.3 Lentil types.....	7
1.4 Production .....	8
1.4.1 World lentil production .....	8
1.4.2 Australian lentil production.....	8
1.5 GRDC's lentil investment .....	9

## 2 Planning and paddock preparation

Key points.....	1
2.1 Lentil requirements .....	2
<i>Checklist for lentil paddock selection:</i> .....	2
2.2 Rainfall and soil moisture.....	2
2.3 Soil type .....	3
<i>pH</i> .....	3
<i>Soil type</i> .....	3
<i>Sodicity and boron toxicity</i> .....	3
<i>Salinity</i> .....	4
<i>Waterlogging</i> .....	4
2.4 Seedbed requirements.....	5
2.5 Stubble management.....	9
<i>Reducing the stubble load with livestock</i> .....	9
<i>Rolling lentil</i> .....	9
<i>Erosion</i> .....	10
<i>Slugs and snails</i> .....	10
<i>Stubble from drought-affected cereal or hay</i> .....	10
2.6 Rotation history.....	11
2.7 Herbicide residues in soil .....	12

<b>2.8 Weed status of paddock .....</b>	<b>13</b>
<i>Problem weeds</i> .....	13
<i>Contamination</i> .....	14
<i>Control</i> .....	14
<b>2.9 Disease status of paddock .....</b>	<b>15</b>
<i>Foliar diseases</i> .....	15
<i>Root diseases</i> .....	15
<i>Disease combinations</i> .....	15
<b>2.10 Nutrition status of paddock .....</b>	<b>16</b>
<i>Soil fertility</i> .....	16
<b>3 Pre-planting</b>	
<b>Key points</b> .....	<b>1</b>
<b>3.1 Lentil types .....</b>	<b>2</b>
3.1.1 Red lentil .....	2
3.1.2 Green lentil .....	3
<b>3.2 Selection of varieties .....</b>	<b>4</b>
3.2.1 Area of adaptation .....	5
<i>Victorian lentil variety information</i> .....	7
<i>South Australian lentil variety information</i> .....	7
<i>New South Wales lentil variety information</i> .....	7
<b>3.3 Red lentil varieties .....</b>	<b>8</b>
3.3.1 Small red varieties .....	8
<i>PBA Hurricane XT<sup>®</sup></i> .....	8
<i>PBA Herald XT<sup>®</sup></i> .....	9
3.3.2 Medium red varieties .....	11
<i>Nugget</i> .....	11
<i>PBA Ace<sup>®</sup></i> .....	11
<i>PBA Blitz<sup>®</sup></i> .....	12
<i>PBA Bolt<sup>®</sup></i> .....	13
<i>PBA Flash<sup>®</sup></i> .....	14
3.3.3 Large red varieties .....	15
<i>PBA Jumbo2<sup>®</sup></i> .....	15
<i>PBA Jumbo<sup>®</sup></i> .....	16
3.3.4 Superseded red lentil varieties .....	16
3.3.5 Trial data of red lentil varieties .....	17
<b>3.4 Green lentil varieties .....</b>	<b>20</b>
3.4.1 Medium green varieties .....	20
<i>PBA Greenfield<sup>®</sup></i> .....	20
3.4.2 Large green lentil varieties .....	21
<i>Boomer</i> .....	21
<i>PBA Giant<sup>®</sup></i> .....	22
3.4.3 Superseded green lentil varieties .....	22
3.4.4 Trial data of green lentil varieties .....	22

<b>3.5 Seed</b> .....	<b>24</b>
3.5.1 Seed quality.....	24
3.5.2 Seed testing .....	25
<i>Seed testing in Australia</i> .....	25
<i>Other seed tests</i> .....	25
3.5.3 Grower-retained seed.....	25
<i>Poor quality grower-retained seed</i> .....	25
<i>Achieving high quality grower-retained seed</i> .....	26
3.5.4 On-farm seed testing .....	26
3.5.5 Handling bulk seed .....	27
3.5.6 Safe storage of seed.....	27
<b>3.6 PBR and royalties</b> .....	<b>29</b>
3.6.1 Plant Breeder’s Rights .....	29
3.6.2 End Point Royalties.....	29
<b>4 Planting</b>	
Key points.....	1
<b>4.1 Time of sowing</b> .....	<b>2</b>
4.1.1 Ideal sowing time.....	2
4.1.2 Time of sowing for southern region.....	2
4.1.3 Yield.....	3
4.1.4 Disease.....	3
4.1.5 Frost.....	4
4.1.6 Heat.....	4
4.1.7 Water-use efficiency.....	4
4.1.8 Sowing too early.....	4
<i>Weed control</i> .....	5
4.1.9 Sowing too late.....	5
4.1.10 Low-rainfall areas.....	5
4.1.11 High-rainfall areas.....	5
<b>4.2 Sowing rate / target population</b> .....	<b>6</b>
<b>4.3 Sowing depth</b> .....	<b>6</b>
4.3.1 Sowing depth and herbicide interaction .....	8
4.3.2 Deep sowing .....	8
<b>4.4 Row spacing</b> .....	<b>9</b>
<b>4.5 Dry sowing</b> .....	<b>10</b>
4.5.1 Herbicide options with dry sowing.....	10
<b>4.6 Herbicide residues</b> .....	<b>11</b>

Group B.....	11
Group I.....	11
Group C.....	11
Group F.....	11
4.6.1 Herbizides in previous crops .....	13
4.6.2 Herbizides for current crop .....	14
<b>4.7 Safe rates of fertiliser sown with the seed .....</b>	<b>15</b>
4.7.1 Crop type.....	15
4.7.2 Fertiliser type.....	15
4.7.3 Soil type and environment.....	15
4.7.4 Machinery configuration.....	16
<i>Liquid fertilisers</i> .....	16
<b>4.8 Machinery for sowing .....</b>	<b>17</b>
4.8.1 Parameters for sowing equipment .....	17
4.8.2 Comparison of tynes .....	17
<b>4.9 Inoculation .....</b>	<b>22</b>
<i>How nodulation works</i> .....	22
4.9.1 Inoculant groups.....	22
4.9.2 When to inoculate .....	22
4.9.3 Inoculant types .....	24
4.9.4 Inoculum survival.....	24
<i>Dry sowing</i> .....	25
4.9.5 Storing inoculants .....	25
4.9.6 Seed treatment compatability .....	25
4.9.7 Inoculant quality assurance.....	26
4.9.8 Inoculation methods.....	26
<i>Peat inoculants</i> .....	26
<i>Freeze-dried inoculants</i> .....	27
<i>Granular inoculants</i> .....	27
4.9.9 Check for nodulation.....	27
<i>Sampling and processing</i> .....	27
<i>Nodule number and distribution</i> .....	27
<i>Nodule appearance</i> .....	28
<b>4.10 Irrigation.....</b>	<b>29</b>
4.10.1 Principles.....	29
4.10.2 Management .....	29
4.10.3 Irrigation findings from NSW DPI .....	30
<b>5 Post planting</b>	
Key points.....	1
<b>5.1 Rolling lentil.....</b>	<b>2</b>
5.1.1 Why roll lentil?.....	2
5.1.2 When to roll .....	2

5.1.3 Rolling post-emergence .....	2
5.1.4 Choice of roller .....	3
5.1.5 Benefits.....	4
5.1.6 When not to roll .....	4
<b>6 Plant and growth physiology</b>	
Key points.....	1
<b>6.1 Introduction .....</b>	<b>2</b>
<b>6.2 Stages of growth .....</b>	<b>3</b>
6.2.1 Germination and emergence.....	4
6.2.2 Vegetative .....	4
6.2.3 Reproductive .....	4
6.2.4 Physiological Maturity.....	4
<b>6.3 Crop development .....</b>	<b>5</b>
6.3.1 Sowing to germination.....	5
6.3.2 Germination to emergence .....	5
6.3.3 Roots.....	5
<i>Root mass and penetration .....</i>	<i>7</i>
6.3.4 Nodulation.....	8
6.3.5 Nodes and leaves .....	9
6.3.6 Stem and branches .....	9
6.3.7 Flowering and pod development .....	10
6.3.8 Maturity .....	12
<b>7 Nutrition and fertiliser</b>	
Key points.....	1
<b>7.1 Essential nutrients for plants.....</b>	<b>2</b>
<i>Macronutrients .....</i>	<i>2</i>
<i>Micronutrients.....</i>	<i>2</i>
<i>A healthy plant.....</i>	<i>3</i>
<b>7.2 Considerations when diagnosing nutrient disorders .....</b>	<b>3</b>
<i>Identifying nutrient deficiencies .....</i>	<i>4</i>
<b>7.3 Soil and plant tissue testing .....</b>	<b>6</b>
<b>7.4 Nitrogen (N).....</b>	<b>7</b>
<i>Deficiency symptoms .....</i>	<i>7</i>
<i>Application.....</i>	<i>9</i>
<b>7.5 Phosphorus (P) .....</b>	<b>9</b>
<i>Deficiency symptoms .....</i>	<i>9</i>
<i>Lentil requirements.....</i>	<i>10</i>
<i>Application.....</i>	<i>10</i>
<b>7.6 Potassium (K).....</b>	<b>11</b>

	<i>Deficiency symptoms</i> .....	11
	<i>Lentil requirements</i> .....	11
	<i>Application</i> .....	11
<b>7.7</b>	<b>Calcium, magnesium and sulfur</b> .....	<b>12</b>
	<i>Calcium (Ca)</i> .....	12
	<i>Deficiency symptoms</i> .....	12
	<i>Magnesium (Mg)</i> .....	12
	<i>Deficiency symptoms</i> .....	12
	<i>Application</i> .....	12
	<i>Sulfur (S)</i> .....	12
	<i>Deficiency symptoms</i> .....	13
	<i>Lentil requirements</i> .....	13
	<i>Application</i> .....	13
<b>7.8</b>	<b>Boron</b> .....	<b>14</b>
	<i>Toxicity symptoms</i> .....	14
	<i>Deficiency symptoms</i> .....	15
	<i>Application</i> .....	15
<b>7.9</b>	<b>Copper (Cu)</b> .....	<b>16</b>
	<i>Lentil requirements</i> .....	16
	<i>Deficiency symptoms</i> .....	16
<b>7.10</b>	<b>Iron (Fe)</b> .....	<b>16</b>
	<i>Deficiency symptoms</i> .....	16
	<i>Application</i> .....	17
<b>7.11</b>	<b>Manganese (Mn)</b> .....	<b>18</b>
	<i>Toxicity symptoms</i> .....	18
	<i>Deficiency symptoms</i> .....	19
	<i>Application</i> .....	19
<b>7.12</b>	<b>Molybdenum (Mo)</b> .....	<b>20</b>
	<i>Deficiency symptoms</i> .....	20
	<i>Application</i> .....	20
<b>7.13</b>	<b>Zinc (Zn)</b> .....	<b>20</b>
	<i>Deficiency symptoms</i> .....	20
	<i>Lentil requirements</i> .....	20
	<i>Application</i> .....	21
	<i>Seed treatments</i> .....	21
	<i>Fertilisers applied at sowing</i> .....	21
	<i>Foliar zinc sprays</i> .....	21
<b>7.14</b>	<b>Lime</b> .....	<b>22</b>
<b>7.15</b>	<b>Cobalt (Co)</b> .....	<b>22</b>
<b>7.16</b>	<b>Soil pH and toxicities</b> .....	<b>22</b>
	<i>Aluminium (Al)</i> .....	23
	<i>Salinity</i> .....	23
<b>7.17</b>	<b>Determining fertiliser requirements</b> .....	<b>23</b>

	<i>Current nutritional status of the soil</i> .....	23
	<i>Nutrient removal by crops</i> .....	24
<b>7.18</b>	<b>Nutrient budgeting</b> .....	<b>25</b>
<b>7.19</b>	<b>Nutrition requirements of lentil</b> .....	<b>27</b>
	<i>Fertiliser toxicity</i> .....	27
<b>7.20</b>	<b>Keys for successful uptake of nutrients by lentil</b> .....	<b>28</b>
<b>8</b>	<b>Weed control</b>	
	<b>Key points</b> .....	<b>1</b>
<b>8.1</b>	<b>Introduction</b> .....	<b>2</b>
	<i>The problem with weeds</i> .....	2
	<i>Identifying weeds</i> .....	2
	<i>Impact and cost of weeds</i> .....	3
<b>8.2</b>	<b>Integrated weed management (IWM)</b> .....	<b>4</b>

<b>9 Pest management</b>	
<b>Key points</b> .....	<b>1</b>
<b>9.1 Integrated pest management (IPM)</b> .....	<b>2</b>
9.1.1 IPM definition .....	2
9.1.2 Problems with pesticides .....	2
9.1.3 IPM, organics and biological control.....	2
9.1.4 Soft v. hard pesticides .....	3
9.1.5 IPM process .....	3
9.1.6 IPM system.....	4
<i>Acceptable pest levels</i> .....	4
<i>Preventative cultural practices</i> .....	4
<i>Monitoring lentil crops</i> .....	4
<i>Biological and environmental control</i> .....	5
<i>Responsible chemical use</i> .....	5
9.1.7 Monitoring methods .....	5
<i>Sweep net monitoring</i> .....	6
<i>Crop inspection</i> .....	6
<i>Yellow sticky traps or cards</i> .....	7
<i>Quadrats</i> .....	7
<i>Tiles, hessian bags and slug traps</i> .....	7
<b>9.2 Identifying pests</b> .....	<b>7</b>
9.2.1 Correct identification of insect species.....	7
<i>Sending insect samples for diagnostics</i> .....	7
9.2.2 Insect ID: The Ute Guide .....	8
9.2.3 GrowNotes™ Alerts.....	8
<b>9.3 Key pests of lentil</b> .....	<b>9</b>
9.3.1 <b><i>Helicoverpa</i></b> species: native budworm and corn earworm ( <b><i>Helicoverpa punctigera</i></b> and <b><i>H. armigera</i></b> ) .....	9

	Distribution of <i>Helicoverpa</i> spp. ....	10
	Pest status of <i>Helicoverpa</i> spp. ....	10
	Identification of <i>Helicoverpa</i> spp. eggs and larvae.....	10
	Distinguishing <i>Helicoverpa</i> spp. from other caterpillars .....	13
	Identification of <i>Helicoverpa</i> spp. moths .....	14
	Life cycle of <i>Helicoverpa</i> spp.....	15
	Diapause in <i>Helicoverpa</i> spp.....	16
	Damage by <i>Helicoverpa</i> spp.....	16
	Monitoring <i>Helicoverpa</i> spp. larvae.....	17
	Monitoring <i>Helicoverpa punctigera</i> (native budworm) moth flights.....	19
	Control thresholds for <i>Helicoverpa</i> spp. ....	19
	<b><i>Helicoverpa punctigera</i> (native budworm) control</b> .....	20
	<b><i>Helicoverpa armigera</i> control</b> .....	21
	Spray applications .....	21
9.3.2	<b>Etiella (<i>Etiella behrii</i>)</b> .....	22
	Etiella identification.....	22
	Etiella damage .....	23
	Etiella life cycle.....	24
	Etiella monitoring methods .....	24
	Day degree model for monitoring etiella.....	25
	Pheromone traps for etiella .....	25
	Sweep nets for etiella.....	25
	Light traps for etiella .....	26
	Chemical control of etiella .....	26
9.3.3	<b>Snails</b> .....	27
	White snails or round snails ( <i>Cermea virgata</i> and <i>Theba pisana</i> ).....	27
	Conical snails or pointed snails or ( <i>Prietocella acuta</i> and <i>Prietocella barbara</i> ).....	28
	Damage by snails .....	30
	Life cycle of snails.....	30
	Monitoring snails .....	30
	Snail control .....	32
	Cultural management for snail control.....	32
	Baiting snails.....	32
	Biological control of snails .....	33
9.3.4	<b>Slugs (<i>Deroceras reticulatum</i>, <i>Milax gagates</i> and others)</b> .....	34
	Slug species identification .....	34
	Damage by slugs .....	35
	Life cycle of slugs.....	35
	Monitoring of slugs .....	36
	Slug control .....	36
9.3.5	<b>Aphids</b> .....	37

<i>Aphids and virus transmission</i> .....	37
<i>Cowpea aphid (Aphis craccivora)</i> .....	39
<i>Bluegreen aphid (Acyrtosiphon kondoi)</i> .....	40
<i>Monitoring aphids</i> .....	41
<i>Aphid control for viruses</i> .....	41
<i>Aphid control for direct feeding damage</i> .....	43
<b>9.3.6 Redlegged earth mite (Halotydeus destructor)</b> .....	<b>44</b>
<i>RLEM identification</i> .....	44
<i>RLEM damage</i> .....	44
<i>RLEM life cycle</i> .....	45
<i>RLEM monitoring</i> .....	45
<i>RLEM control and insecticide resistance management</i> .....	45
<i>Chemical control of RLEM</i> .....	45
<i>Biological control of RLEM</i> .....	46
<i>Cultural control of RLEM</i> .....	46
<b>9.3.7 Lucerne flea (Sminthurus viridis)</b> .....	<b>47</b>
<i>Lucerne flea identification</i> .....	47
<i>Lucerne flea damage</i> .....	47
<i>Lucerne flea life cycle</i> .....	48
<i>Monitoring lucerne flea</i> .....	48
<i>Chemical control of lucerne flea</i> .....	48
<i>Biological and cultural control of lucerne flea</i> .....	49
<b>9.4 Other pests of lentil</b> .....	<b>50</b>
<b>9.4.1 Blue oat mite (Penthaleus spp.)</b> .....	<b>50</b>
<i>Blue oat mite identification</i> .....	50
<i>Blue oat mite damage</i> .....	50
<i>Blue oat mite life cycle</i> .....	50
<i>Blue oat mite monitoring</i> .....	51
<i>Chemical control</i> .....	51
<i>Biological and cultural control</i> .....	52
<b>9.4.2 Australian plague locust (Chortoicetes terminifera)</b> .....	<b>52</b>
<i>Australian plague locust identification</i> .....	52
<i>Australian plague locust damage</i> .....	52
<i>Australian plague locust life cycle</i> .....	53
<i>Control</i> .....	53
<b>9.5 Occasional pests of lentil</b> .....	<b>53</b>

## 11 Pre-harvest treatments

Key points.....	1
<b>11.1 Desiccation</b> .....	<b>2</b>
11.1.1 Seed and pod development.....	3
11.1.2 Timing of desiccation.....	4
11.1.3 Effect of desiccants on green immature seeds.....	9
11.1.4 Products registered for the pre-harvest desiccation of lentil.....	10
11.1.5 Practicalities of desiccation.....	10
<b>11.2 Crop-topping</b> .....	<b>11</b>
11.2.1 Implications of crop topping too early.....	11
<i>Trials on crop-topping</i> .....	13
<b>11.3 Windrowing</b> .....	<b>14</b>
11.3.1 Benefits.....	14
11.3.2 Risks.....	14
11.3.3 Timing.....	15
<i>Snails</i> .....	15
11.3.4 How to windrow.....	15
11.3.5 Should lentils be windrowed or direct headed?.....	16
11.3.6 Direct harvesting.....	16

## 12 Harvesting lentil

Key points.....	1
<b>12.1 Impact of delayed harvest on profitability</b> .....	<b>2</b>
12.1.1 Yield losses.....	2
12.1.2 Deterioration in grain quality.....	3
12.1.3 Missed marketing opportunities.....	4
<b>12.2 Implementing early harvest management</b> .....	<b>5</b>
12.2.1 Sowing.....	5
12.2.2 In-crop management.....	5
12.2.3 Harvest management.....	5
12.2.4 Benefits of early harvesting.....	5
<b>12.3 Harvesting and harvester settings</b> .....	<b>6</b>
12.3.1 Harvester thresher size and rotor speed.....	7
<b>12.4 Modifications and harvest aids</b> .....	<b>8</b>

12.4.1 Flexible cutter-bar fronts (flexi-fronts).....	8
12.4.2 Aussie-Air .....	9
12.4.3 Harvestaire.....	9
12.4.4 Vibra-mat.....	9
12.4.5 Crop lifters.....	10
12.4.6 Extension fingers.....	11
12.4.7 Extended fronts .....	11
12.4.8 Platform sweeps.....	11
12.4.9 Draper fronts .....	12
12.4.10 Other modifications and harvest aids.....	12
<b>12.5 Snails .....</b>	<b>13</b>
12.5.1 Harvester modifications to minimise snail contamination.....	15
<i>Disrupter kit (faba bean) .....</i>	<i>15</i>
<i>Snail dislodgers (faba bean).....</i>	<i>16</i>
<b>12.6 Achieving a clean grain sample.....</b>	<b>17</b>
12.6.1 Rolling for harvest efficiency.....	17
12.6.2 Perforated screens .....	18
12.6.3 Harvester speed.....	18
12.6.4 Harvesting in high humidity.....	18
12.6.5 Pick-up fronts .....	18
<b>12.7 Lodged crops .....</b>	<b>19</b>
<b>12.8 Harvesting for seed.....</b>	<b>19</b>
<b>12.9 Harvester fires.....</b>	<b>20</b>
12.9.1 Harvest checklist.....	21
<b>12.10 Assessing grain harvest losses.....</b>	<b>22</b>
<i>Example:.....</i>	<i>22</i>
<b>12.11 Receival standards .....</b>	<b>23</b>
<i>Definitions:.....</i>	<i>23</i>
<i>Standards.....</i>	<i>23</i>
<i>Pulse Standard Review .....</i>	<i>24</i>
<i>Visual quality charts.....</i>	<i>24</i>
<i>Additional grade – cleaning grade.....</i>	<i>24</i>
<b>13 Storage and handling</b>	
Key points.....	1
<b>13.1 Handling lentil.....</b>	<b>2</b>
<b>13.2 Grain cleaning.....</b>	<b>2</b>
<b>13.3 Grain quality in storage .....</b>	<b>3</b>
13.3.1 Basic storage principles .....	4
<i>Moisture.....</i>	<i>4</i>
<i>Temperature.....</i>	<i>5</i>
<b>13.4 Grain storage principles.....</b>	<b>6</b>

<i>Silo capacity</i> .....	6
<b>13.4.1 Cooling grain and aeration cooling</b> .....	<b>8</b>
<b>13.4.2 Preventing moisture migration</b> .....	<b>8</b>
<i>Moisture sources</i> .....	9
<b>13.4.3 Drying grain and aeration drying</b> .....	<b>9</b>
<b>13.5 Insects in storage</b> .....	<b>10</b>
<b>13.5.1 Farm and grain hygiene</b> .....	<b>10</b>
<i>Insect development</i> .....	10
<i>Treatment options for controlling insects in stored lentil</i> .....	11
<b>13.5.2 Fumigation</b> .....	<b>11</b>
<i>Fumigation basics</i> .....	11
<i>When not to fumigate</i> .....	11
<i>Fumigation success</i> .....	12
<i>When to fumigate?</i> .....	12
<i>Using phosphine</i> .....	12
<i>Phosphine application and dosage rates</i> .....	13
<i>Timing</i> .....	14
<i>Ventilation after fumigation</i> .....	14
<i>Disposal</i> .....	14
<i>First aid</i> .....	14
<i>Other fumigants</i> .....	15
<b>13.6 Sealing silos</b> .....	<b>15</b>
<b>13.6.1 Testing silos for seal</b> .....	<b>17</b>
<i>Method of testing</i> .....	17
<b>13.7 Silo bags</b> .....	<b>18</b>
<i>Lentil quality risks and silo bags</i> .....	19
<b>14 Environmental issues</b>	
<b>Key points</b> .....	<b>1</b>
<b>14.1 Drought and heat stress</b> .....	<b>2</b>
<b>14.2 Moisture stress</b> .....	<b>3</b>
<b>14.3 Waterlogging</b> .....	<b>4</b>
<b>14.4 Frost</b> .....	<b>5</b>
<i>Diagnosing frost damage</i> .....	6
<i>Keys to success for minimising frost damage in lentil</i> .....	6
<b>14.5 Lack of sunlight</b> .....	<b>9</b>
<b>14.6 Soil erosion</b> .....	<b>9</b>
<b>15 Marketing</b>	
<b>15.1 Selling principles</b> .....	<b>1</b>
<b>15.1.1 Be prepared</b> .....	<b>1</b>
<b>15.1.2 Establish the business risk profile (when to sell)</b> .....	<b>3</b>

FEEDBACK

*Production risk profile of the farm* .....3

*Farm costs in their entirety, variable and fixed costs (establishing a target price)*.....4

*Income requirements*.....4

*When to sell revised*.....5

**15.1.3 Ensuring access to markets** .....5

*Storage and logistics* .....6

*Cost of carrying grain* .....7

*Ensuring market access revised*.....8

**15.1.4 Executing tonnes into cash** .....8

*Set up the tool box*.....8

*How to sell for cash*.....9

*Counterparty risk*.....12

*Relative values*.....13

*Contract allocation* .....13

*Read market signals*.....13

*Sales execution revised*.....13

**15.2 Southern lentils – market dynamics and execution**.....14

15.2.1 Price determinants for southern lentils .....14

15.2.2 Ensuring market access for southern lentils..... 16

15.2.3 Executing tonnes into cash for southern lentils.....17
